Topics highlighted in blue can potentially lead to novel results. Resulting high-quality papers will be earmarked for submission to international conferences.

The number in parentheses shows the default size of the research team for each topic.

2. Standards for Software Processes: A Survey (1)
3. Agent-Oriented Methodologies: A Report on Recent Research (2)
4. Test-Driven Development: A Report on Recent Research (2)
5. Lean Development: A Report on Current Trends (1)
6. Tool Support for Agile Methodologies: A Survey (1)
7. People Management Techniques in Agile Software Development: A Survey (2)
8. Agile RUP: A Survey and Analysis of the Different Approaches (2)
11. Process Modeling: A Survey and Analysis (2)
12. Model-Driven Development (MDD) Methodologies: A Survey and Analysis of the Status Quo (2)
13. Methodologies for Developing High-Integrity Systems: A Survey and Analysis (2)
15. Extensibility in Methodologies: A Survey and Analysis (2)
