Reading Assignment 5
(Interpretable Learning I)

Presentations Date & Time: Sunday, May 31\textsuperscript{st} (1399/03/11)
Groups 02 – Group 04

Presentations Date & Time: Tuesday, June 2\textsuperscript{nd} (1399/03/13)
Groups 01 – Group 03

Please upload the presentations at course page on Quera (or email me) one day before the due date
(Please upload/send both pdf and source files)
Each presentation 30 minutes + 15 minute discussions

The forth module of this course is about the Big Data. The importance of big data doesn’t revolve around the amount of data, its velocity, veracity, and variety, but its value. All the groups must read the general assignments.

General Assignment (reading for all groups)
Reference [0] and [00].

Presentations
1. Group 02: Definitions, methods, and applications in interpretable machine learning
   Reference: [1] (1399/03/11)
2. Group 04: Techniques for Interpretable Machine Learning
   Reference: [2] (1399/03/11)
3. Group 03: Towards A Rigorous Science of Interpretable Machine Learning
   Reference: [3] (1399/03/13)
4. Group 01: Methods for Interpreting and Understanding Deep Neural Networks
   Reference: [4] (1399/03/13)
